

The Daily News.

NEWPORT,

BY CRANSTON & NORMAN,

127 THAMES STREET.

THURSDAY MORNING, NOV. 27, 1851.

No paper will be issued from this office tomorrow morning.

The Governors of every State in this great Union, with a single exception, have assigned this day as one for Thanksgiving and Praise to Almighty God, for the numberless blessings granted to us during the past year, and for His continuous Mercies bestowed upon us; consequently nearly twenty-five millions of people will abstain from labor, this day, in this Republic, very many of whom will go up to the temples which have been dedicated to the worship of God, our common Father, and there offer the oblation of grateful hearts which is due from the finite creature to the infinite Creator.

The thought that so many human beings are all gathered upon the same day, and for the same purpose, is truly a beautiful one, for this acknowledgment of the supremacy of the Power which guides and preserves us, speaks well for the emotions of the hearts of the creatures of the universe. Viewing the matter calmly, and aside from all the secular employments of life, we owe all and everything to Him who tempers the wind to the shorn lamb, who is a Friend and Father to the widow and the orphan, and who does not willingly afflict any of His children.

The people of America have everything to be thankful for on this occasion; we have been variously tempted and although we have constantly erred, yet have we been mercifully preserved. Individually and nationally, we have fallen very far short of the high commands of Heaven, yet we have been saved from the terrible visitation of the wrath of an offended God. We have no right to expect all this clemency, because we know the requirements of the Divine law, and we know when we transgress them, that we deliberately invoke the vengeance of Justice. But God has compassion upon us, and He calmly bears with our repeated provocations, and yet invites us to accept of His proffered Grace, which is freely extended to us through the mediatorial atonement. It is His infinity alone which preserves us from the doom which we merit, and yet which we so much dread.

Let us all, therefore, abstain from every kind of secular employment on this great National Sabbath, and, assembling in the temple of God, offer up to Him the pure Thanksgiving of grateful hearts, and give Him Praise for the numberless and undeserved blessings which He has bestowed upon us,--and also humbly implore a continuance of them in future.

We trust that our readers will remember the course of lectures which the Rev. Mr. Stewart is about to give, at Masonic Hall, on Scientific subjects. The first will be delivered this evening.

Mr. Stewart is a highly educated, intelligent and accomplished man, and we have no doubt but that his lectures will be very useful and instructive, and we trust that they will be numerously attended. One half of the proceeds will be generously bestowed upon the poor, by Mr. Stewart, and this alone should operate as a strong incentive to induce our citizens to attend them. See advertisement, in another column.

These lectures will be highly interesting and valuable to Mechanics, in the application of Science to all the arts. The lecture this evening will be free.

One of the best articles now in use for preserving and beautifying the hair, is Barry's Tricopherous. The inventor and proprietor, Professor Barry, has devoted many years and a vast deal of money to bring his Tricopherous to the highest possible degree of perfection,--and it must be a proud satisfaction to him that he has succeeded so well. It prevents the hair from coming out, restores the hair when it has begun to lose its vitality, and gives it a beautiful gloss and silky softness. It is used all over the world, and with uniform success. It is in fact an indispensable toilet article, and no one who has any desire to preserve and beautify the hair should be without it. In addition to the many excellencies of Barry's Tricopherous, it is sold at an exceedingly low price; Professor Barry is enabled to do this, by reason of its great popularity, and consequent immense sale. See advertisement, in another column.

The Webster Convention at Faneuil Hall, on Tuesday, was a tremendous gathering. Eloquent speeches were made, and a splendid Address to the people was adopted. Massachusetts is all alive for Webster.

We are indebted to the Hon. Al-

Thanksgiving Hymn.

BY WILLIAM H. CRANSTON.

With thanks to Thee, O God Supreme,
For all Thy mercies given;
Accept our praise from this dark earth,
To Thee is Thine own heaven.
Thy kindness we have known and felt,
In all the paths of life,
For Thou hast guided all our walks,
From pernicious and strife.

Thy love has cheered our fading hearts,
And served our weaker sense;
And raised us unto manliness,
If not to innocence,
If not to holy acts and deeds,
And aches thoughts of love,--
We have been better, far, than those
Whose lips with prayer ne'er more.

We thank Thee for Thy guardian care,
Thy shield above us spread,
And that our lives again are spared
From dwelling with the dead.
Be thou our great Protector still,
In error's wildest night,
And stretch'er us the ample folds
Of Thine exhaustless light.

Oh, may we spend, for many years,
On earth, those holy days,
And on the morn of each, return
To Thee more fitting praise.
Thus growing in Thy grace, may we,
Through in Thy court the least,
Begged there as well-loved guests,
At Thy Thanksgiving Feast.

NEW YORK.

The Court of Common Pleas for the County of Newport commenced its November Term in this town, on Tuesday morning. Judge Staples delivered a brief and comprehensive Charge to the Grand Jury, on the nature of their duties. On Wednesday morning the Grand Jury came in and presented Indictments against the following persons:—Bailey Manchester, George Hall, William Shaw, William Shaw, Robert H. Watson, Town of Tiverton.

On Tuesday morning the Court was engaged in the trial of an action, Henry Y. Cranston vs Mary L. Ruggles, Administratrix. This was an action for the recovery of money due by book account for professional services rendered to the late Nathaniel S. Ruggles, Esq. H. Y. Cranston & Son for Plts. Verdict for Plts. for amount claimed, \$432.89 and costs.

H. Y. Cranston & Son vs Mary L. Ruggles, Administratrix. This action was similar in character to the above, and was for professional services rendered to the late Mr. Ruggles.

Congress commences its session on Monday, and the President's Message will undoubtedly be delivered on that day. Arrangements have been made to send it to Post Masters in the principal cities of the Union, the same as last year; and as soon as the Telegraph announces that its reading has been commenced, the copies will be delivered to such editors as wish to have them.

Owing to the severity of the storm Tuesday night, the steamer Bay State anchored at Hart Island, and did not arrive here until about 10 o'clock.

James Montgomery, the English poet, is dead; he never ranked among the highest of the poets, but he was much admired for the sweet and devotional pathos of his productions. He had just completed his 70th year.

"Mother, send me for the doctor."

"Why, my son?"

"Cause that man in the parlor is going to die—he said he would, if sister Jane would not marry him—and Jane said she wouldn't."

American Wine.—The cultivation of the grape is carried on extensively in the neighborhood of Cincinnati, and it is supposed that not less than one thousand acres are devoted to this.—A correspondent of the Newark Daily Advertiser states that in one wine cellar which he visited in Cincinnati, he saw 75,000 bottles of sparkling Catawba, and about 10,000 gallons of wine in casks, varying from 10 to 50 gallons in each.

"I say," said a dandy to an intelligent inechian, "I got an idea in my head!" "Well," replied the other, "if you don't cherish it with great care, it will die for want of companions."

The Elmira "Kithn," a paper edited by C. C. Butt and "my brother Homer," has ceased to exist, the spirit having departed from it.

The Webster Convention at Faneuil Hall, on Tuesday, was a tremendous gathering. Eloquent speeches were made, and a splendid Address to the people was adopted. Massachusetts is all alive for Webster.

We are indebted to the Hon. Al-

bert C. Greene for a variety of valuable Public Documents.

At the grave, where the body of the late Dr. Alexander of Princeton was buried, Dr. Magie of Elizabethtown, N. J., made the following short speech.

—How much he said:

"Eighty years of life on earth are ended here. Sixty years in the ministry of the gospel are ended here. Forty years in the instruction of a rising generation of ministers are ended here. All that was mortal of our father and friend we have just committed to the silent tomb. It does look cold, and dark, and dreary, but it is no more so than the grave in which his Master lay, and they who sleep in Jesus will God bring with him."

Iowa must be the sportsman's paradise, if we can believe the Burlington Telegraph. That paper says:

"Our sportsmen are having a 'good time' just now. Wild turkeys, in large numbers, are being shot daily within a mile of the city. A few days since, a small party of hunters returned from the bottom with two deer and a large quantity of small game. An evening or two since another party came in with two hundred and thirty two ducks and any number of quails, woodcock, pike, bass, &c. Better hunting grounds are not to be found in the world than those of this immediate vicinity—and it is a singular fact that game appears to become more plentiful every succeeding year."

ARRIVING INCIDENT.—A Kanaka, one of the crew of the ship New Bedford, cast away on Boardir Island, volunteered to swim with the end of a line from the wreck, through the surf to the shore. He succeeded in securing the end of the line on the shore, by which the lives of the rest were saved, but on reaching the shore they found the poor fellow dead; in the act of securing the line he had been overcome by the exertion of swimming through the surf.—San Francisco Post.

AS two urchins were trotting along together, one of them fell and broke a pitcher which he was carrying. He then commenced crying, when the other boy asked him why he "took on so?"

"Cause," said he, "when I get home mother will lick me for breaking the pitcher."

"What," said the other, "hain't you got no grandmother living at your house?"

"No" was the reply.

"Well, I have, and I might break two mugs, and they daren't lick me."

Mr. J. D. Oudin is engaged, in Paris, by the Rev. Dr. Chodat, for the purpose of teaching French in his School. That situation enables him to put his terms at a rate reasonable. Besides, his resolution of making Newport his home, is a guarantee of permanence in his lessons.

A CARD.

DOCT. P. GOURAUD,
Medical Doctor, a graduate of the Academy of
Medicine and Surgery of Paris, France,
SURGEON Oculist,
DENTIST.

AND PROFESSOR OF CHEMISTRY: has the honor to apprise the Ladies and Gentlemen of Newport an vicinity; and, in general his old acquaintances and former patients, for this fifteen years past; that he has begun anew his former practice of Medicine and Surgery, at his Dwelling, No. 19 Bridge Street; where he offers his professional services to them, as a Surgeon Dentist and Oculist; his long experience and remarkable qualities given to those who place confidence in his skill, extensiveness and performances in giving general satisfaction, will have the merit to assure an enlightened public that their patronage will not be lost, with regard to their trust, either for themselves or their children, in regulating the defects of their teeth in the different operations performed in the art of Dentistry upon them.

As a Surgeon Oculist, in the varieties of disease either chronic, inflammatory or accidental, which afflict the Eyes and the Sight, either in young subjects or older ones; the Doctor during his late sojourn in the city of Paris, has by deep scientific and laborious studies, rendered himself eminently acquainted with them, principally with those concerning the operations performed on STRABIC SUBJECTS, or Squint Eyes.

This delicate operation which gives immediate relief to an awkward and disagreeable deformity of nature, performed by a skilful operator, is reduced to about 30 seconds, or, to the shortest, to one minute's anxiety; and, in other hours or sensations than the feeling of a mice of sand, entering under the Eyelid, or the prick of a fine needle, introduced in the flesh; as an evidence, the only sight or inspection of the instruments used in performing the operation, will be all sufficient to induce a Strabik, without any hesitation to desire the immediate performance of the operation.

It is necessary to state, that in 1841, the Doctor was the first practitioner who introduced and performed the operation of strabismus, in the city of New York, upon 24 Subjects, with an individual success, after having operated upon upwards of 300 in France, June 23.
